## > powerhouse solutions that increase payment efficiency

VersaPay's Verifone Vx570 is a countertop solution that offers exceptional payment processing speeds, thereby significantly reducing transaction and checkout time. It combines superior speed and performance, with the latest in security technology.

## Verifone Vx570

Verifone's Vx570 is the perfect choice for an ever-changing merchant environment, designed to deliver unequalled performance and an unprecedented level of flexibility.

Smart and stylish, the Vx570 relies on a lightning-fast processor and built-in thermal printer to handle credit and debit card payments. Profitable value-added applications such as prepaid services, gift cards, and loyalty programs can also be processed.

In today's fraud protection conscious society, the Vx570 is compliant with the most stringent of security standards. Among tamper-resistant construction and the ability to read all Canadian and Foreign Chip-enabled cards, the full range of protection measures within the unit ensure your customer's valuable data is safe.

Your business is always evolving. Get added flexibility without additional cost or inconvenience with the Vx570.

- > New Benchmark in Flexibility & Usability
- > Extraordinary Convenience & Security
- > Anti-Theft, Tamper and Fraud Protection
